BioBlend PO

BIODEGRADABLE PENETRATING OIL

DESCRIPTION:

BioBlend PO is an excellent penetrating oil and general purpose lubricant that is formulated from readily biodegradable renewable resource base stocks and additives. **BioBlend PO** has superior wetting ability and a high affinity for metal surfaces which offer excellent penetrating and loosening of frozen, rusted or stuck components. The "green" solvents used are excellent for dissolving dirt, grease and removing debris, while leaving a light lubricating film which helps control corrosion. Since it contains natural and biodegradable ingredients, it is safer for the environment. As with any solvent-type product, care should be taken when using around certain plastics, foam rubbers, urethanes and painted surfaces as they can be incompatible.

FEATURES:

- Biodegradable, a renewable resource and friendly to the environment
- Helps protect metal surfaces from corrosion
- Excellent water displacement properties
- Cuts through dirt , grease and grime
- Good lubricating properties
- Affinity for metal promotes fast penetrating action
- Low toxicity

TECHNICAL DATA:

BioLube		PO				
Specific Gravity:		.9				
Flash Point °F (°C):	ASTM D92	>114 (46)				
Biodegradability, %:	CEC-L-33-A-94	>95				
Appearance		Clear amber				
Odor		Slight solvent				

AVAILABLE PACKAGING:

Aerosol, Spray Bottle, 1 Gallon, 5 Gallon Pails, 55 Gallon Steel or Plastic Drums, 275 Gallon Totes, and Bulk.
